## LOCAL MATTERS.

Weather Probabilities December 29, 1880 .-For the Middle States, northeast to northwest winds, threatening weather and snow, falling thrometer during the day and stationary or a slight fall in temperature.

More Snow .-And it snowed, and it snowed, And it snowed again,

And it never left off snowing. The flecoy flakes began falling again last night and have continued to fall during the day without intermission, giving the ground an additional coating of white and presenting us a truly arctic picture, very well to lock out upon through the windows of a well warmed room, but very hard upon those who have to brave the storm; pleasant chough to the wel to de," but terrible to the poor, to whose hear's it brings another parg and a cry to Heaven for mercy from the pitiless cold and the driving snow that covers everything like a pall. Bat the farmers rejoico, as it keeps the wheat soughy covered up and secure from the biting frosts, though the stock will require additional care. The sidewalks will all nave to be cleared off over agaic, bat the boys will make thereby a "little change." The sleighers will have plenty of fen, though the poor borses will have to pay for it; the river will be so chilled that it will speedily freez) up, but the ics crop will be greater for it next summer, and so on and so on. Beautiful but cold snow, with its pleasures and its terrible discomforts, but let us be assured it's all for the bes'. Atl out-of-door business has been virtually suspendad to day, and none but those who have been compelled by extraordisory circumstances have ventured out. There has been no sleighing, though the snow lays invitingly deep on the streets. All the trains over the different rail roads loading to the city, were late in arriving here to day, in consequence of the heavy fals of snow in every direction.

The winters of 1856 and 1880, so far as heard Midland Railway Company. Hon, John S. Barbour, the present able and efficient Receiv from, compare tavorably. The "beautiful is now about thirty isches on a level in this city, with the storm, which commesced this moralog in earnest, still prevailing.

PRECAUTIONS AGAINST FIRE .- As an ounce of preventions aworth a pound of care, the fire department, for the safety of the property of Alexandria, during the prevailing extreme winter weather, and while the streets are banked with snow and the sidewalks covered with ico, has, with that desire for the public good which has characterized their every act, taken, as will be recognized by all, some necessary precautions against line. The city has been divided into two districts, fastern and Western, Pitt street being the diviting line. In case of an alarm of fire toth of the steam engines will leave their houses s usual, but as soon as the location of the fire assertsined, if it is in the Eastern district, the is accretained, it it is in the Bastern district, the columbia horses will be transferred to the Hydraulien engine and assist in taking it to the scene of the fire, or abould it be in the Western district, the horses of the Hydraulien engine will be detached and attached to the Columbia engine. In addition to this arrangement shafts have been placed on the Hydraulien and Columbia have been placed on the Hydraulien and Columbia have carriagus and a horse for each secured temporarily. The greater part of the cured temporarily. The greater part of the hremen of the two companies are expected, in case of a fire to assist the Relief Hook and hadder Company in getting their truck to the fire. As no simulants of an intoxicating mature are allowed at fires, and as rome hind is necessary in such weather, parties residing in the neighborhood of a fire are requested to proceed immediately to the prepared to the fire technique. ration of hot caffee for the firemen. The Super-intendent of Police with a force of workmen, is rg aged in clearing the snow i om around the fire rings, but as it will be some time before he can get to all of them the citizens in the neighborhood of the plug: are requested to lead a helping Land in the work, as the necessity for Robinson & Co., 909 Penu. WASHINGTON, D. C., Dec'r. 28—Dispatches from bichinoud, Feteraburg, Danville and other places South represent heavy snow falls in those ice shifes.

COR, KING AND ST. ASAPH STS. was filed yesterdey morning, at eight c'olcok, ai h friends of the late Captain Joseph White, nearly at the et ambiet men p ying the Poto mad being present to pay their List inbute to is tempice. High mass was celebrated by House of B. Robinson & Co. 909 Peop. Avc., Fither Edelio, who altarward delivered an im ressive discentse on the life and character of the decrased. The friends of the late esptain then took a final look as his remains, which were in a handsome coker imbedded in the conject il rateff ringe, among them a broken that and cross sod erewa The bedy was then berne to the bearso and taken to the Baltimore and Ohio depot for stipment to Baltimore, where the interment will be made. The pallbearers were Messes, Guion Harris, George Wile, W. J. Stepherson, J. H. Johnson, J. O. Donnell and J. A. Beacham. The colors of the versels in the harbor at Nerfolk were displayed at half-mas; yesterday in respect to the mamory of the deceased.

SNOW ON PAVEMENTS.-Nearly all the tenders of the Gazette have heard of John Eleis, a renoweed English miser, who lived ter the classet the last esatory, and whe, natwi listanding he lets a fortune of £800,000, avowed himself too poor to buy a coat a few days previous to his death. Mr. Elwes, like most ecceptric characters, entertained some man kept one salvant bis work was done well, if two but balf done, and if three he would have to do it himself, and he practiced what he preached, and as a cons quence, worked his only servant unmercifully. Curious as this exclusion may seem, many have been convinced of its truth during the late snow, for it is an iscontrovertible fact that in front of houses where but one man lived the sidewalks were cleared of the snow early, while before those containing two, three and four persons of the matcaline gender very little, if aug, of the snow and ice was removed.

THE RIVER. - The river is so jammed with ico from Fort Foots to G'y nont that pavigation is a most impossible for the largest steamers. The loke and the Leary, due here from Norfolk at 7 o'clock this morning did not arrive until 12 o'cleck. It took them five hours to make the trip from Glymout to this city. The Lake will not make her trip to night, but the agent of the Later in this city received a telegram from Weshington to day that that steamer would leave to night for Norfolk as u. u.d.

The steamer John Gibson, from Naw York, due bere Monday last, is reported in the river elf Glymont. The ferry boats are making their regular trips

between this city and Washington.

A DESCENDANT OF PATRICK HENRY .- A man giving his name as W. H. Godwell, a crip bie, was picked up by a policeman on the s reefs last night in an intexicated undition, and taken to the station house, where this metaing he stated that he was a great grand son of Patrick Henry; that he left Danville, where he had edited a newspaper, over four seers are, and went to Pritadelphi; from Philadelphia be came to Washington, where he was sent to the work house for druckenoese; while in that ics itution he received several letters from Hop. A. H. Stevens, all of which he (xhibired. He was released from custody, but was soon after foarrested in the Circuit Court room and locked up.

SCCIETY ITEMS. - Some of the young gentle men of this city will give a hop at McBurney's Hail to morrow night. This will be the last hop of 1880.

Miss S. Ledarman, of Charlottesville, is spending the holidays with her friend, Miss Hettie Strauss, danghter of Alderman Henry Straus of this city.
